PROFILE

Lead Product Designer with 13+ years shaping enterprise SaaS, aviation, healthcare and safety products. I turn complex role-based workflows into clear journeys, connect research with product strategy, and partner with engineering from concept through handoff.

EXPERIENCE

Wipro / Honeywell T-MAN | Lead UX/UI Designer

2026 / Aviation commissioning platform

Led UX for airport and gate setup, planner, VDGS mapping, configuration and calibration. Modeled dependencies, readiness and validation across factory and field engineering journeys.

Harman Connected Services | Lead Product Designer

From 2021 / Enterprise and connected healthcare

Designed CloudHub role-based cloud management and Niraxx patient-provider journeys. Led an Ossur UI audit, translating 339 findings into a prioritized design and engineering backlog.

ANGLER Technologies | Senior UX/UI Designer

2011-2020 / Product and web experiences

Progressed from visual design to research, information architecture, interaction design and cross-functional product delivery.

SELECTED IMPACT

CloudHub: 40% faster task completion and 50% faster provisioning. Niraxx: reported 4.72 G-CSAT and 100% NPS. Ossur: 339 audit findings, including 20 high-severity items.

EXPERTISE

Strategy
Product framing, stakeholder alignment, complex workflows

Research
Interviews, journey maps, usability testing, heuristic audits

Systems
Role-based IA, accessibility, design systems

Delivery
Prototyping, validation, developer handoff

AI PRACTICE

AI-assisted exploration and prototyping with attention to human review, permissions and error states.

TOOLS

Figma, FigJam, Miro, Axure, Sketch, Adobe XD, Jira; HTML, CSS and JavaScript basics.

EDUCATION

MCA, Indira Gandhi National Open University. BCA.
